Essay Questions:

What changes, if any, could be made to the class that would have helped you to learn more? What could the instructor have done to make the course an even better learning experience?

He needs to have often hours more during the week
I can't believe I'm saying this, but I wish there were more quizzes because when the tests came around, I started to forget what the first couple of chapters were about.
I think weekly quizzes, or some way to test my knowledge between the tests would have helped me to better retain the information and prepare for exams.
More quizzes or homework to test the students knowledge.
None.
That the class could be longer and that sometimes the material was to broad and not straight to the point, so I would go straight to the point
The lectures were great but the information taught didnt represent what was on the exam
We talked about it in class, so he is aware. Nothing major though.

What could you have done to make the course an even better learning experience?

The material being more to the point
ask more questions
I could have gone to class more.
I could have studied more often
Nothing
Spent more time on the subject
Studied more than I did.

What did you like most about the class and your instructor?

Clear explanation and great use of real-life examples applied to the subject.
I like how enthusiastic he was and how he made it simple for us to understand it in a real-world term rather than straight out of the textbook.
I liked that Middleton was always enthusiastic even when the class was not.
That we did games to help understand the material.
The energy & dedication he provided every class.
The instructor was very energetic and kept the lectures invigorating. He was also very adamant about reaching out for help and was very available for questions.
The professor's examples helped me gain a better understanding of the material.
Very enthusiatic

Essay Questions:

What factors about this class contributed the most to your learning? What aspects of this class helped you to learn to think critically?

Clear explanation and great use of real-life examples applied to the subject.
His enthusiasm to teach us.
I think the material in the course contributed the most to my learning. I was able to relate all of the stuff talked about in lecture to real life events.
That I like to learn about the economy. The test were broad because of the material.
The journals were good for critical thinking because they always applied to the weeks lessons.
The lectures were very informative

What factors about your own performance helped you learn the most? What did you do to facilitate your learning?

I think my interest in the subject helped my performance. I would read the textbook and take notes out of there to learn the definitions and then apply it to the powerpoints.
I went over the powerpoints after class.
Reading over materials to get familiar with the subject.
Studying with others.
Taking notes and forming a study group for the tests.
That I actually know things about the course and that I like the course.
The lectures
